

BIOPHOTONIC

The **BioPhotonic** device delivers exogenous frequency therapy.

Exogenous is something that is added from outside of the body, for example a pain killer, supplement or in our case a set of frequencies that enter the body through the water matrix, blood vessels, nerve fibres and cellular and intracellular levels.

The BioPhotonic device's pre-installed frequencies have been designed to target and alleviate certain bodily responses, such as a headache, toxicity etc.

Use:

The **BioPhotonic** device can be used any time of day or night, there are no restrictions
Children can use the device under adult supervision.
